82ND AVE. COMMUNITY SOLAR

Limited spots available!

Renewable energy on 82nd Avenue

APANO is building a large community solar array across from McDaniel High School!

What is Community Solar?

Community solar is a solar array that people can join virtually to share the benefits of the energy that is generated

Benefits to you

Save money on your electricity bill!

Minimal risk: No upfront costs or termination fees

Accessible: No need to own a home or have solar panels

Good for the planet: Reduce pollution and greenhouse gases

Local: Support clean energy and jobs in the neighborhood

How do I sign up?

Attend a workshop!

Partners:

APANO | Portland Clean Energy Community Benefits Fund | bcf | Oregon Community Solar Program Registered Project Manager

This organization is operating under the Oregon Community Solar Program. The Oregon Community Solar Program is a state-enabled initiative overseen by the Oregon Public Utility Commission and implemented by Energy Solutions, the Energy Trust of Oregon, and Community Energy Project. The Program provides resources and certification for its Project Managers (PMs) but is not affiliated with or sponsors of PM organizations.

FREQUENTLY ASKED QUESTIONS

How does community solar work?

The solar panels of the array produce power that is sent to the local energy grid. Eligible households can sign up for a share of this power and receive credits on their electricity bill each month. This is a virtual subscription to solar energy. We do NOT put solar panels on your roof.

Who can sign up?

You must:

- Live in Portland
- Be a Pacific Power customer
- Pay your own electricity bill
- Qualify as low-income

80% State Median Income		
Household Unit Size	Annual Income	Monthly Income
1	$53,768	$4,480.67
2	$70,312	$5,859.33
3	$86,856	$7,238.00
4	$103,400	$8,616.67
5	$119,944	$9,995.33
6	$136,488	$11,374.00
7	$139,591	$11,632.56
8	$142,692	$11,891.00
9	$145,795	$12,149.56
10	$148,896	$12,408.00
11	$151,999	$12,666.56
12	$155,100	$12,925.00

Effective through September 30, 2027. Amounts are for gross household incomes.

What is the process to sign up and receive benefits?

1. Let us know you are interested!
2. Income verification
3. Provide your utility info
4. Sign a contract
5. Receive credits on your electricity bill within 2 months of the solar array going online, scheduled for February 2027
6. See benefits for 20 years

Do I have to pay? What are the risks?

- There are no upfront costs to you as a low-income subscriber. Even though there is a subscription fee, the price of the subscription will always be covered by the electricity bill credits you receive. Then, you keep the extra savings from the solar array!
- You can cancel your subscription at any time without any fees.
- You can change your address and still keep your subscription as long as you are in the same Pacific Power electrical territory.
